BMHC21 PROGRAMMING

CLAIMING OUR POWER, RESILIENCE, AND LIBERATION

Founded and led by the Black Mamas Matter Alliance (BMMA), the Black Maternal Health Conference (BMHC) is the premiere assembly for Black women, clinicians, professionals, advocates, and other stakeholders working to improve maternal health using the birth justice, reproductive justice, and human rights frameworks. This year's virtual conference will offer a national space for learning, rich discussions, and mobilization to transform Black maternal health, rights, and justice. We need a place to be in community together, to vision and dream, and to celebrate each other.

Dorothy E. Roberts is an American scholar, public intellectual, and social justice advocate. She writes and lectures on gender, race, and class in legal issues. Her concerns include changing thinking and policy on reproductive health, child welfare, and bioethics. Dr. Roberts joined us for an interactive live discussion to offer a national space for learning, rich discussions, and mobilization to transform Black maternal health, rights, and justice.

Black Mamas Matter Alliance was also greatly excited to welcome Kelis as the guest speaker for day 2 of #BMHC21. Kelis Rogers is an American singer, songwriter, and chef. We also shared a myriad of roundtable discussions within BMMA's internal network discussing the past, present, and future of Black Maternal Health.

Thank You!

The Black Mamas Matter Alliance's (BMMA) 2021 Black Maternal Health Week (#BMHW21) and Black Maternal Health Virtual Conference (#BMHC21) was a transformative experience because of incredible speakers, experts, affiliated partners, sponsors, and supporters like you who rose to the occasion.

Thank you for joining us in celebrating our 2021 theme -
Black Mamas Matter: Claiming Our Power, Resilience & Liberation.

With your participation, we successfully provided a platform where we shared the challenges impacting Black birthing people, celebrated ingenuities of Black-led models of holistic maternal and reproductive health care, as well as amplified the voices of Black Mamas to shift the narrative to center our joy and liberation. We, at BMMA, are deeply grateful for your commitment to this year's joint campaign.

With sincere gratitude,

Angela D. Aina
